

PRAJWAL PATIL

AI/ML Engineer

+91 7028147305 | prajwalpatil062008@gmail.com

GitHub | LinkedIn | LeetCode

Professional Summary

AI/ML Engineer with hands-on experience in Machine Learning, Deep Learning, Generative AI, and Retrieval-Augmented Generation (RAG) systems. Skilled in Python, FastAPI, TensorFlow, PyTorch, LangChain, and FAISS. Experienced in building scalable AI applications, LLM-powered systems, and production-ready backend services for real-world use cases.

Education

Parul University	2023 – 2027
B.Tech in Computer Science and Engineering	CGPA: 6.49
Mahatma Gandhi College, Chopda	HSC: 73%
Pratap Vidya Mandir, Chopda	SSC: 72%

Technical Skills

Languages: Python, C, JavaScript, R

Core CS: Data Structures & Algorithms, OOP

AI/ML: Machine Learning, Deep Learning, TensorFlow, PyTorch, Scikit-Learn

Generative AI: LangChain, RAG, FAISS, Prompt Engineering, Embeddings, Vector Search, LLM Applications

Backend & Databases: FastAPI, REST APIs, MongoDB, Redis, JSON

Tools & Platforms: Git, GitHub, Docker, Celery, VS Code, Jupyter Notebook, Vercel

Projects

LinguifAI – Multi-LLM Language Translation Platform

FastAPI, OpenAI, Gemini, Groq, DeepSeek, Redis, Celery, Docker

Developed an advanced AI-powered language translation platform that dynamically routes requests across OpenAI, Gemini, Groq, and DeepSeek models to deliver accurate context-aware translations. Architected a FastAPI backend using Celery and Redis for asynchronous AI task execution and large-scale PDF/DOCX document processing. Optimized API latency and inference speed for real-time translation workflows while deploying the complete microservices infrastructure using Docker.

MediSense AI – RAG Based Medical Assistant

LangChain, Hugging Face, FAISS, FastAPI

Built a Retrieval-Augmented Generation (RAG) healthcare assistant for intelligent medical information retrieval. Integrated LangChain, Hugging Face models, and FAISS vector search to generate context-aware responses. Developed scalable FastAPI services for real-time query processing and response generation.

AI Smart Learning Platform

Live Demo

Python, FastAPI, TensorFlow, PyTorch, MongoDB

Developed an AI-powered learning platform providing personalized quizzes, course recommendations, and learning paths. Built ML/DL models for student analytics and recommendation systems while integrating MongoDB with FastAPI services. Deployed the platform on Vercel and implemented AI-assisted development workflows for rapid prototyping, debugging, and optimization.

Achievements

- Solved 300+ Data Structures and Algorithms problems on LeetCode.
- Strong understanding of LLM pipelines, vector databases, RAG systems, and prompt engineering.

Coding Profiles

- LeetCode: 300+ problems solved across DSA topics.
- Active GitHub contributor with AI, ML, and Generative AI projects.
- Strong problem-solving and debugging skills.

Relevant Coursework

Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Machine Learning, Artificial Intelligence.

Certifications

- Generative AI Certification
- AI Fundamentals Certification
